Individuals and society

✓ Socialization: process through which one learns how to act according to the rules and expectations of a particular culture
✓ Social control: various means by which a society encourages conformity to its rules and expectations
✓ Stratification: ranking system for groups of people that perpetuates unequal rewards and life chances in society
✓ Ideology: coherent system of beliefs, values and ideas
✓ Social movements: continuous, large-scale, organized collective action motivated by the desire to enact, stop, or reverse change in some area of society
